SECTION 651 OF THE CODE OF LAWS FOR THE DISTRICT OF COLUMBIA

In compliance with the requirements of the above section, the department reported to your honorable board in March last the financial condition of all insurance concerns licensed to transact business in the District of Columbia, respecting their assets, liabilities, and surplus as of December 31, 1924. The financial statements submitted by these insurance companies, associations, and orders have since been audited and corrected, and I am now submitting in statistical and detailed form a report of the financial status and business of each concern for the calendar year 1924.

PROPOSED NEW INSURANCE CODE

For sometime past a new insurance code has been before the Congress of the United States. This code has failed to pass as yet for various reasons, some of which have been obliterated and all of which can with a few changes be removed. This code is now on the Senate and House calendars, and there is a great possibility that it will become a law at the next session of Congress. The need for this code has been most urgently felt, and it is hoped that this legislation will materialize as a law before the end of another year.

INSURANCE COMMISSIONERS' CONVENTIONS

The insurance department should be represented at the conventions of the insurance commissioners of the United States, as well as at all the important committee meetings. This convention has now been in existence for over 50 years and has succeeded in bringing about considerable constructive action in the insurance world. Uniform legislation and insurance department practice were the first objects of the convention, and to a very large extent these have been realized.

The annual-statement blank used by all the insurance concerns is the work of the convention committee, and the standard provisions incorporated in accident and health policies is likewise the work of the convention committee. The convention stands for the protection of the policyholder, as well as all reputable insurance companies and associations. It is believed that in the very near future this convention will be the means of bringing about uniform legislation, as far as possible, in all the States, which means the saving of millions

of dollars to the companies, and in turn to the policyholders, who get the cheaper protection. Every insurance department in the country is represented at these conventions, which are usually held twice a year, and the expenses are borne by the various States. It is hoped that Congress will be asked to make an appropriation for the necessary expenses of the insurance superintendent or his deputy.

TAXES AND ANNUAL COMPANIES' LICENSES

In view of the present stand of the Chamber of Commerce of the United States against excessive taxes on insurance companies we have been asked to urge Congress not to raise the rate in the District from 1 to $1\frac{1}{2}$ per cent on the net premiums. The first insurance bill, known as H. R. No. 3689, placed the rate for all companies at 1 per cent on net premiums, but Senate bill No. 4148 not only raised the rate to $1\frac{1}{2}$ per cent but also raised the annual license fee from \$10 to as high as \$100, depending upon the assets of the company. This means that the policyholder is paying the bill, and it is hoped that your honorable board will ask for the lower rate of taxation, or if this can not be obtained, then that the present annual license fees be continued.

NEW FRATERNAL INSURANCE LAW

There will be introduced at the incoming Congress a new fraternal law for the District as sponsored by the National Fraternal Congress of America. Some objection was raised to the original draft on the part of fraternal organizations not members of this congress, but it is believed that these differences can all be straightened out and the new bill passed without opposition. The proposed new insurance code does not attempt to regulate fraternal associations, and the proposed new fraternal law is for the purpose of making fraternal as safe as any other class of insurance.

GENERAL REMARKS

The work of the department is in excellent condition and the records up to date. It is our aim to serve the public in any way possible, and in this we have the hearty cooperation of each employee.

Respectfully submitted,

T. M. BALDWIN, Jr.,
Superintendent of Insurance.
